

MATTHEW OLENDER, P.E., S.I.

Senior Principal

Summary

Matt Olender joined Thornton Tomasetti, in New York City, in 2001 and is a leader of the Forensics practice. He is a licensed Professional Engineer specializing in investigating and repairing building deficiencies/defects. He relocated to Fort Lauderdale in 2008 and now manages the Thornton Tomasetti Florida operation, including the Fort Lauderdale, Miami, Tampa and Orlando offices. Matt has worked on high-profile litigations such as the World Trade Center Collapse. He has testified as an Expert many times and investigated hundreds of building failures. He designs repairs and renovations to existing buildings, acting as the Engineer of Record and Special Inspector on many projects. Matt is an Adjunct Professor at the University of Miami and has been a guest lecturer at Vanderbilt University and Nova Southeastern University.

Areas of Technical Expertise

- Structural Engineering
- Forensic Structural Engineering
- Emergency Response

Education

- M.S., Structural Engineering, 2001, Duke University
- B.S., Civil Engineering, 1999, Clarkson University

Registrations

- Licensed Professional Engineer in FL
- Licensed Special Inspector in FL

Professional Activities

- Adjunct Professor teaching Forensic Engineering and Law, University of Miami, Department of Civil, Architectural and Environmental Engineering, 2019, 2021-2022

Select Project Experience

Structural Engineering

One Thousand Ocean, Boca Raton, FL. Building repair of a 7-story luxury condominium building including arrival deck pavers, waterproofing, terraces, stucco, post tensioning, windows and doors.

Dania Jai Alai, Dania Beach, FL. Renovation of existing facility into a casino and entertainment venue. Scope included removal of grandstand seating, reconfiguration of many spaces, reinforcement and replacement of structure including addition of new lateral system.

Beach Club Tower I, Hallandale Beach, FL. Building envelope repair of a 44-story condominium building including stucco, post-tensioning steel, guardrails, masonry and concrete repairs.

Forensic Structural Engineering

World Trade Center, New York, NY. Evaluation of interdependence of tower collapses. Analyzed videos and photographs of collapse aftermath to establish extent of debris after first tower collapsed.

City of Miami Gardens, Municipal Complex, Miami Gardens, FL. Investigation of cracked concrete within a precast concrete parking garage and cast-in-place concrete police station.

Emergency Response

Miami Dade College, West Campus, Doral, FL. Investigation of cause and origin of damage to a precast parking garage after collapse during erection.

JW Marriott Bonnet Creek, Kissimmee, FL. Investigation of formwork collapse during construction of a multi-story hotel.

MATTHEW OLENDER, P.E., S.I.

Sworn Testimony

Trial and Arbitration Experience

Arbitration and Deposition, The Tropicana Condo. Ass'n Inc. v. Sunny Isles Prop. Venture LLC, regarding alleged damages from adjacent construction in Sunny Isles, FL. December 17, 2020; November 3, 2020.

Trial and Deposition, Falkouski v. Citizens Prop. Ins. Corp. regarding sinkhole damage to a single-family home in New Port Richey, FL. February 26, 2019; February 6, 2019.

Trial and Deposition, Casa Clara Condo., Inc. v. R.L. James, Inc. regarding balcony replacement in a 3-story conventionally reinforced concrete residential building. Alleged issues involved insufficient embedment of new reinforcing steel, improper placement of steel, reduced concrete durability and concrete cracking.
