

DANIEL A. WOJNOWSKI, PH.D., P.E.

Senior Vice President

Summary

In 2017, Dr. Daniel A. Wojnowski joined Thornton Tomasetti to lead the Chicago Forensics team, with over 30 years of experience and expertise in forensic investigation of construction and structural related matters. Dan's knowledge covers construction engineering, evaluations of distressed and failed structures, including commercial and residential buildings, bridges, shoring, scaffolding, industrial and agricultural plants and cranes. He has testified as an expert witness on these topics as well as construction site safety and premises liability. His civil, structural and metallurgical background allows for all-encompassing investigative skills when structural materials and systems are involved. He is a frequent author and presenter at the ASCE Engineering Forensic Congresses.

Areas of Technical Expertise

- Forensic Structural Engineering & Material Science
- Construction Engineering
- Construction Safety/OSHA Compliance
- Emergency Response

Education

- Ph.D., Metallurgical Engineering, 1994, University of Illinois at Chicago
- M.S., Metallurgical Engineering, 1983, University of Illinois at Urbana-Champaign
- B.S., Civil Engineering, 1981, University of Illinois at Urbana-Champaign

Registrations

- Registered Professional Engineer in AR, FL, IA, IL, IN, KY, LA, MI, NJ, NY, OH and WI
- OSHA Certifications: 10 and 30 Hr. Construction Safety, Fall Protection, Introduction to Safety and Health Management, Trainer in Occupational Safety and Health Standards for Construction, Health Hazard Awareness, and Confined Space
- Safety Training in City of Chicago for Scaffold User Training; Aerial Boomlift Operator Certification

Professional Activities

- Member, American Society of Civil Engineers (ASCE)
- Member, Structural Engineering Institute of the American Society of Civil Engineers
- Member, Illinois Society of Professional Engineers (ISPE)
- Member, National Society of Professional Engineers (NSPE)
- Member, International Building Code Council (IBC)

Select Project Experience

Forensic Structural Engineering

The Peninsula at Saint John's, Jacksonville, FL. Investigation of alleged defects of panel screen façade assemblies used in the construction of the parking garage. Offered assessment of alleged design and construction defects and delineated the scope of repairs by causation.

Transmission Tower Collapses, Forensic investigation of guy wire tower collapses. Towers as tall as 2000 feet have been analyzed to determine the cause of collapse. Analyses included the effects of wind, ice and/or snow upon tower and guy wire components.

Waste Water Plant, OH. Investigation of alleged defectively designed and constructed plant. Analyzed the design of the pre-cast concrete structure as well as the construction.

Grain Bin, Prince Rupert, BC. Forensic Investigation involving structural design and construction related defects of four 108-foot-tall by 90-foot-diameter bins. Offered opinion on standard of care issues related to delegated design.

Forensic Material Science

Airport, Chicago, IL. Environmental corrosion of structural support brackets of pedestrian bus shelters and life expectancy determination.

HCl Production Plant, IA. Chemical attack of precast concrete piping, reinforced concrete flat work and reinforced concrete tanks due to an accidental HCl acid spill at a chemical plant facility during the commissioning process following construction of plant.

High Rise, FL. Investigation of structural framing corrosion allegedly due to water intrusion from hurricane.

Residential High Rise, FL. Investigation of corrosion issues pertaining to structural steel and fasteners.

*Denotes work performed with previous employer.

DANIEL A. WOJNOWSKI, PH.D., P.E.

Construction Engineering

4th & Race, Cincinnati, OH. Provided on-site engineering consulting. Daily engineering included the design and/or evaluation of concrete shoring, hoists, mast climbers and pole scaffolding used in the construction of the building.

Cincinnati MLS Stadium, Cincinnati, OH. Peer review of concrete shoring utilized in the construction of a post-tensioned concrete structure.

Lakeshore East, Chicago, IL. Peer review of concrete shoring utilized in the construction of a post-tensioned concrete structure. On-site quality control inspection of erected shoring prior to concrete pour.

50 East Randolph, Chicago, IL. Provided shoring/re-shoring design used in the construction of a post-tensioned concrete 25-story structure.

Construction Safety/OSHA Compliance

Construction Site, Chicago, IL. Investigation of construction hoist erection resulting in amputation of a worker's arm.

Construction Site, NJ. Investigation of a worker's fall from a water tower during renovation. Offered opinion on the safety responsibilities of the contractors, engineers and municipality.

Construction Site, Chicago, IL. Investigation of demolition practices and contractor safety responsibilities involving collapse of wall resulting in death of a worker.

Construction Site, Howell, MI.* Investigation of aerial lift tip-over involving a sole proprietor working on a multi-employer construction site.

Emergency Response

Miller Park Crane Collapse, Milwaukee, WI.* Emergency response to document failed 500-foot-tall crane and conduct failure investigation.

Superdome, New Orleans, LA.* Investigate the extent of damage to the dome as a result of Hurricane Katrina.

4th & Race, Cincinnati, OH. Emergency response to investigate failed concrete shoring that collapsed during concrete placement in a multi-story, mixed-use structure.

Alternative Dispute Resolution

Logan Aluminum, Inc. v. Ace World Co. Ltd., Lexington, KY. Mediation regarding overhead crane design and construction where plaintiff alleged crane did not meet contract specs and defendant requested design changes.
