Thornton Tomasetti

Carbon Reduction Plan

Supplier name: Thornton Tomasetti Romsey Ltd

Publication date: 28 April 2025

Commitment to achieving Net Zero

Thornton Tomasetti, including all its legal entities (the entire firm) is committed to achieving Net Zero emissions by 2030.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2018

Additional Details relating to the Baseline Emissions calculations.

Thornton Tomasetti's emissions analysis uses 2018 as the baseline year. Although we began calculating our operations carbon footprint in 2012, we readjusted our baseline year following a 2016 merger that increased our employee numbers by 25 percent. We have no scope 1 emissions as we have no owned facilities or vehicles.

Baseline year emissions:		
EMISSIONS	TOTAL (tCO ₂ e)	
Scope 1	0	
Scope 2	1,957 (entire firm); 10.65 (TT Romsey)	
Scope 3 (Included Sources)	4,361 (entire firm); 52.32 (TT Romsey)	
Total Emissions	6,318 (entire firm); 62.97 (TT Romsey)	

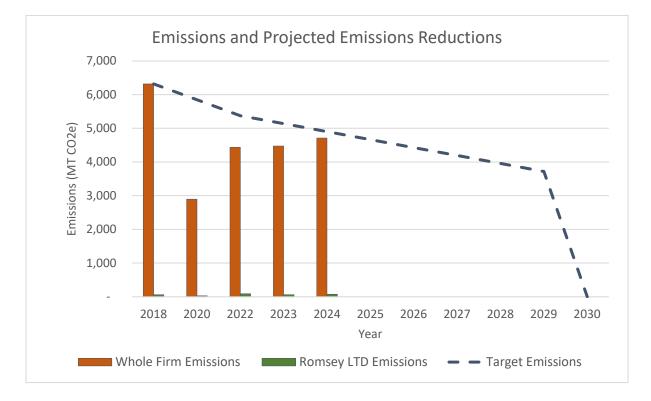

Current Emissions Reporting

Reporting Year: 2024	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0
Scope 2	343.41 (entire firm); 10.10 (Thornton Tomasetti Romsey Ltd)
Scope 3 (Included Sources)	4370 (entire firm); 65.44 (Thornton Tomasetti Romsey Ltd)
Total Emissions	4713.68 (entire firm); 75.54 (Thornton Tomasetti Romsey Ltd)

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

Our firmwide target is to reach carbon neutral business operations in 2030, aiming to reduce absolute emissions by 5% each year.

Thornton Tomasetti 2024 Emissions Update

We reduced absolute operational emissions by 25% from our 2018 baseline. Factors in the reduction of our carbon footprint include the overall greening of the electrical grid, corporate renewable-energy purchases and office energy efficiency updates. While we purchase offsets to cover 100% of our air-travel emissions, we report our emissions without offsets, in line with global reporting standards.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
