

DANIEL A. GREENBERG, ARCHITECT

Associate

Summary

Dan has over 20 years of AEC industry experience. His unique career began with 10 years as a building inspector and consultant before becoming a licensed architect. He has experience with a wide range of project types, varying in scale and complexity from small residential structures to large commercial building renovations and new construction, from design through construction. His forensic and consulting experience includes building envelope (including stucco, vinyl & aluminum siding, EIFS, storm shutters, windows, doors, louvered openings, roofing, waterproofing, coatings, sealants), architectural/structural failures, storm damage assessments, peer reviews, building code and ADA analysis, zoning analysis, moisture intrusion/water penetration investigations, construction claims and defects, professional standards of care, liability evaluations, and property claim (insurance) matters.

Areas of Technical Expertise

- Construction Claims & Defects
- Litigation Support
- Insurance / Property Loss
- Storm Damage & Building Envelope Assessments
- Architectural Standard of Care

Education

- M.Arch, 2014, University of South Florida, School of Architecture & Community Design
- A.A., 2010, Hillsborough Community College

Registrations
